## Background

---

Alice is the current generation's [Witch](#) who controls the Ploy Kickshaw. The Meinster witches, the witches who control the Ploys are considered heretics among mages.[\[4\]](#)[\[5\]](#). Alice's abilities as a magus stems not from her father but from her mother **Meinster** (マインスター, *Mainsutā*[\[2\]](#)), who was the previous generation's witch and had the second title of the **Pure Witch**. She was a pop culture girl, getting drawn easily to the latest trends. She was also a big fan of [Lewis Carroll](#).[\[6\]](#)[\[5\]](#). The elder son of the Kuonji tycoons met and fell in love with a witch while studying abroad. He loved her, and while she accepted that love with some confusion, she was also afraid at the same time. No matter how blessed their wedding may be, the daughter to be born will be a witch. Just as she herself was one, the child of a witch will bear the destiny of inheriting the blood and history of their line without any exceptions.[\[5\]](#).
